## **Organization message**

It gives me great pleasure to present the Annual Report of the organization for its 29th year, it is a matter of pride for anyone that the organization has been running successfully for such a long time, many thanks to the Board of Directors of the organization for this trust. . Trust and cooperation of donor organizations is very important for the survival of any voluntary organization. Therefore, I express my heartfelt thanks to all the donor organizations like Water for People, Water for People India Trust, Ministry of Women and Child Development, Government of India.

I thank Heifer International, Population Foundation of India, State Bank of India Foundation and other organizations. This report is incomplete without thanking the workers who are working day and night with full devotion to make the objective of the organization successful, hence I would like to express my gratitude to all the employees, coordinators/mobilizers/managers/auditors, board members etc. Thank you very much.

During the Corona period, the targets have been set for prevention of Covid, Covid vaccination, employment at rural level, promotion of skill development and self-employment, expansion of work in new geographical locations in the field of climate adaptation, entrepreneurship development and institutional development. For the coming year.

Vimal Kumari  
(Secretary)

## ORGANISATION ORGANOGRAM :

### **Progress for the period of April, 2022 to March, 2023**

#### **BSLD Project Bandra – Supported by Heifer International**

Bandra block is a flood affected block. Farmers of Bandra have to face many disasters like flood, drought, heavy rain, thunderstorm etc., hence the economic condition of agricultural workers is very bad and especially the condition of women is very bad in literacy, economic, social, gender equality. Anemia among the women of the poorest of the poor families and malnutrition in their children, hence during the project, our team surveyed and selected 4000 poorest families and formed 200 SHGs (20 families per SHG) from these poorest of the poor families. This is a women based program for implementation.

Figure 1 live sale to goat for better benefit

We have provided many trainings for skill development on women empowerment, institutional development and livelihood promotion like group management, training on corner stone, IAM based on goat rearing, vermi compost and organic pesticides like Agnistra, Nimastra, Jeevamrit through Kitchen garden based on organic farming(Kanchan Amrit. we have provided an assistance of Rs 40,00,000 (Forty lakh rupees) Revolving fund of Rs 10 thousand per family to 400 families for sustainable livelihood for goat rearing.

We have also contacted bankers Bandra and Mutlupur branch of North Bihar Gramin Bank and Pusa branch of Canara Bank. The organization connected villagers with bankers as most of the members are deprived of the banking system.

We facilitated to grass root level one women on panchayat level for first aid treatment and deworming to goat. His name called "CAVE" (Community Agriculture and Vato Nery entrepreneur. Our organization made to self-dependent to CAVE. They provide services at community level for goat about primary level checkup and treatment.

**FIGURE 2 CAVE SALE TO MEDICINE FOR GOAT TREATMENT**

After our team trains the women, they provide a loan of Rs. 20 thousand by the bank and after the loan, the farmer is asked to buy a shade for the goat, four goats and get all the goats insured

from United Insurance Company. The insurance fee per goat is only Rs 372. Till now, 241 women deprived of the banking system have been

provided loans after providing training on goat rearing and they are also getting used to making the repayments on time.

This will help in creating credit of those women in the bank. In view of anemia among women and malnutrition among children, seeds and training were given to plant kitchen garden (green vegetables even in less space near the house) which is expected to improve health. | The model of poultry farming has also been given to help the needy and interested women financially. Growing plants from seeds and selling them (making women entrepreneurs) was also encouraged.

In order to get maximum benefit from the products produced by women, Bandra Mahila Farmer Producer Company has been formed and registered with the Government of India under the Companies Act 2013. With this, collective buying and selling will be possible on a large scale.

The target has been set to run a school to make women literate and a farmer field school for testing in agriculture. Training has been given to reduce the use of chemical fertilizers and do organic farming so that one can get more profits and healthy agricultural products at less cost.

We facilitated to grass root level one women on panchayat level for first aid treatment and deworming to goat. His name called "CAVE" (create to Agriculture and Vat Nery entrepreneur)

## 2, CHILDLINE COLLAB - DARBHANGA

Children should have a beautiful future so that they can become a participant in the development of their family, society and country, whereas if help is not provided to the needy and immediate children, then they can harm the society with negative energy. So children are the invaluable asset of our society, so that it can be taken care of properly, for this purpose, our organization is operating a collab organization at Darbhanga district in collaboration with CHILDLINE India Foundation since last 16 years (2006) Under this, we are not only providing proper and necessary assistance to the needy with the help of link service, but also making every section of the society aware about why it is necessary to protect children, why child labor, child marriage, child buying and selling is wrong, also working to awareness. We tell people about the laws related to children, its protector officers, the role of voluntary organizations and the schemes of the government related to children.

The following things are told in the awareness meeting -

- What is the Child protection policy of government
- What is the role of 1098 toll free child helpline number, how it functioned?
- What is the child welfare committee, how it functioned
- What is the Juvenile justice board, how it functioned.
- Child protection Why
- What action to be taken against child trafficker?
- What is the Childline program and how it functioned?
- What is the child right, and how we are (All people) its custodian
- We do this type of meeting with the following people / organizations of the society –
- Student, Teacher, PRIs Member, Block Officials, Bankers, Police Department, ICDS, Asha & Anganwardi, Factory, Shop Keeper, Bus Stand, Railway Station etc.

Last year Covid and lockdown has presented a lot of challenge in front of us. We have continued our efforts even in this difficult situation, as they needed our help. In the meantime.

## 3. CHILD HELP DESK (CHD) - CHHAPARA RAILWAY STATION

For the past many years, our workers, supported in Darbhanga, have given very good results in the direction of child protection on the strength of hard work, the result of their tireless hard work is that the Ministry of Women and Child Development and C India Foundation has given us the established CHILD HELP DESK at railway station, Chhapra. Last four years the privilege of working on important topics like child protection, child care and prevention of child buying and selling. In the first year itself, we have succeeded in reaching out to the good result and established good relation with sources and officers. Covid and lockdown have posed a lot of challenge in front of us. We have continued our efforts even in this difficult situation, as it was important to reach out to the key people at the earliest that they have provided the necessary help to the children, the main support being shelter, rehabilitation, medical help, protection from abuse, emotional support and 1098 toll free services have been started for guidance, and our team has started reaching out to the needy children and providing them the necessary help. We have not got a chance to succeed even more due to less traffic at the station due to the lockdown. We are doing this type of meeting with station master, super dent, GRPs, RPFs, CWC, NGOs, Police department, vendors and baggers etc. To make them aware of following things are trying to.

- Why Child Protection? What is the child protection policy of the government?
- What is the role of 1098 Toll free Child Help Line Number, how does it work?
- What is Child Welfare Committee, how does it work?
- What is Juvenile Justice Board, how does it work?
- What action should be taken against child traffickers?
- What is Child Line Program and how does it work?
- What is child right, and how are we (all people) its guardians.
