

Case study on Make to Mask

Address: Rani Devi, W/O-Ramashankar Chaudhary, Village –Mahuarua, Pnchayat-Harnahi, Block-Sheohar, Dist- SHEOHAR

After lockdown all family faced several economic problems in his family. Then Rani Devi (as house wife) namely volunteers also faced bad economic situation because her husband also has stop to his livelihood activity. All livelihood activities have stopped in this period. Then organization convinced to his volunteer that 'you will start make to Mask because this is very useful for community. Mask rate has increased in this time" so if our volunteers make to mask then KSA will support in sale to Mask and organization will support in purchase to cloth for Mask.

Intervention: Then Rani Devi started make to mask and sale to very low price comparative with market rate and Kachan Seva Ashram support in sale to Mask. Thus 9300 rupees saved money in two month during lockdown.

Individual income level increased during lockdown

with save the money to community vs market rate of Mask. She is directed purchased the cloth supported by husband and sale through organization.

Community level filling: Community also accepted the good idea buildup in community about Rani Devi that she decided good work during lockdown.

Organization level progress: Community gave thanks to organization Kanchan Seva Ashram for provide to good idea.
